jlennon@hotbsoftware.com – role 1

rstar@hotbsoftware.com – role 2

Validated on Mozilla, Chrome

Landing Page

- ~~Search box – Inputting an item into the box and then pressing the enter button will not trigger anything. REMOVED~~
- ~~Username Login box – Same as search box.~~
- ~~Password login box – Same as search box. **Still have to click on login error, enter does nothing.**~~

Terms of Service Page

- ~~Content is not properly justified – too narrow~~
- ~~We should center the link under the content box – **Not centered.**~~

Search/filter Page

- ~~Triggering a search from the landing page and hitting the search page; pressing the back button will not clear out search box text on the landing page.~~
- ~~Filter options in Agency & Tags are not in alphanumerical order. [back-end change]~~
- ~~**Filter Date Range – not working & output calendar box output isn't optimized**~~
- ~~**-Mozilla If filter is set from 03/01/2018 – 03/06/2018 the display will be from 03/01–03/05.**~~
- ~~**Calendar outline not working – Calendar dates are but off in the From, To box.**~~
- **Unable to click on article (in chrome)**
- ~~Swap List View Icon with traditional Home Icon (i.e. picture of a house)~~
- ~~Change tooltip on Home Icon to “Home”~~
- ~~Triggering Last Updated, Views, or Shares deforms output.~~

Article detail page

- ~~No button to go back. Title header is empty or cuts off. [dashboard button in top nav bar]~~
- ~~**–No back button. Will not implement**~~
- ~~Tags rectangular output box – separate tags do not have whitespace between themselves~~

Administrator View – Role 2

- ~~Comments – Can leave empty comments on articles.~~
- ~~Comments – There seems to be an input limit but comment output seems to simply output in a straight line instead of paragraph formatting if no spaces are introduced into the input.~~

- ~~Comments — Cancel button and the name of the last comment are superimposed.~~
- ~~Comments — Create User, Manage Users icon menus do not work on the comment article page.~~
- ~~**Edit Profile — Return to dashboard page does not work from this page.**~~
- ~~Approved Articles — Last Updated, Views, Shares sorting mechanism distorts output. Broken again~~
- ~~Approved Articles — Article list overlaps. (NEED MORE INFORMATION)~~
- ~~Declined Articles — Last Updated, Views, Shares, Status sorting mechanism distorts output.~~
 - ~~Remove last update, views and shares columns on Declined Articles Page~~
- ~~Articles in Review — Status sorting mechanism distorts output. Need more articles to test this.~~
- ~~My Profile — Can't seem to update the user. Error message is prompted when attempted to save.~~
- ~~My Profile — cancel button does not work.~~
- ~~My Profile — Dashboard navigation button does not work on this page.~~
- ~~Cannot delete approved articles — prompts an error message when attempting to leave the page. REMOVE TRASH BIN ICON FROM APPROVED ARTICLE DETAILS PAGE~~

Staff/Author View — Role 1

- ~~Comments — Can leave empty comments on articles.~~
- ~~Comments — There seems to be an input limit but comment output seems to simply output in a straight line instead of paragraph formatting if there are no spaces.~~
- ~~Create Article Long Description — bold, italics, underline, & strikethrough do not save formatting.~~
- ~~Create Article — Can only add 1 upload file. — must use multi-select (THIS IS OKAY FOR PROTOTYPE)~~
- ~~**Create Article — pressing cancel if data is input doesn't prompt the user if they are sure they want to cancel. Not sure if we want this feature. Will not implement**~~
- ~~My Non-Published Articles — Cannot delete, error is prompted once user attempts to exit page. Error occurs after user tries to exit page.~~
- ~~History icon in article details — History output can be overlapped on an article details page if there are a lot of comments on an article. This can be seen with article named, "LD article test". Possibly move history table above comments section.~~

Staff/Author View — Role 0

- ~~Create Article Long Description — bold, italics, underline, & strikethrough do not work~~
- ~~Create Article — Can only add 1 upload file.~~
- ~~Create Article — pressing cancel if data is input doesn't prompt the user if they are sure they want to cancel.~~
- ~~My Non-Published Articles — Cannot delete, error is prompted once user attempts to exit page.~~

Misc

- ~~Deleting a user who has an article that is pending will break the Articles To Review output box~~
- ~~Can create a user with the same name & email:~~
- ~~Change ListView icon tooltip to "Articles"~~
- Add tooltips to icons in the Approved Articles section
- ~~Decrease font on Create User page regarding user creation rules~~
- ~~Edit User page should match same design as Create User~~
- ~~If a role 2 user deletes a role 1, that role 1 user, while still logged in can do all the normal things a role 1 can do:~~
 - ~~Upon signing out, that role 1 user is deleted. Attempting to log back in with that users info will simply do nothing - attempting to view articles will trigger a signin endpoint error~~
 - ~~Attempting to make a new user with old users email is not possible. That email can never be used again. [This is the required functionality as we do a soft delete only]~~
- **Sharing an article through FB/Twitter - when a user clicks on the re-direct link to the article, the article output is not optimized. Seems off.**
- ~~If typing in the wrong login information, then clicking the arrow, there is no error message saying incorrect information~~
- ~~If then trying to click the "view" button after incorrect login info, a sign in endpoint error occurs~~
- (Staff User) When in articles view, under the search bar is a sorting method (last updated/views/etc). You can sort by clicking towards the left of "last updated" in the blank space, which extends towards the "title description". This sorts the list alphabetically
- ~~Dashboard and Article icons switch order when they are clicked~~
- ~~Inside search bar in articles page, "searches" search for all words within the page, not just keywords, sometimes displaying articles not related to search (search "test")~~
- ~~In articles view, filters, with the date range, dates are exclusive, meaning march 6-7 doesn't include march 7~~
- ~~In dashboard view, clicking articles under "My Published Articles" open in a new tab, while every other articles stays on the same tab.~~
- ~~No max character limits when creating an article, causing text to run off the article page if to long, get cut off, or push buttons slightly off the page~~
- When attaching an image to an article, then going back to edit that article, you have to reattach that image again, or else it saves without it.
- Creating an article, the long description text box is not aligned with the other text boxes

- Short description text box allows you to drag and drop its size infinitely
- When commenting on an article, The spacing between comments are inconsistent
- There is no confirmation for deleting a article, like "Are you sure you want to delete this?"
- ~~When creating an article, the "suggested tags" is weird, as you cannot click inside it, but can highlight the words and scroll through its list~~
- ~~When filtering by the date, can set the "to" date to be before the "from" date~~
- When clicking into an article, the users information, such as author/publish/etc, is floating off the intended area slightly
- article title gets cut off if too long when clicked
- ~~Article titles are not bolded when viewing articles from landing page~~
- ~~Filtering by date, if putting march 7-march 7, march 6 articles still appear.~~
